Chapter 9

Dictionaries: the menu card

Say the name, get the price. Instantly.

In these notes

- ✓ Keys and values
- ✓ Reading safely with .get()
- ✓ Adding, changing, deleting
- ✓ Looping and nesting

The chai shop story

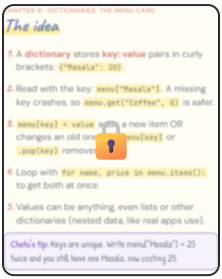

A new helper asks, "How much is Adrak chai?" Raju doesn't count down a list; he looks at the menu card: Adrak, 15. Name on the left, price on the right. A dictionary is that card: you look things up by name, not by position.

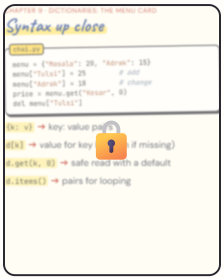

Remember: Say the name, get the price. Instantly.

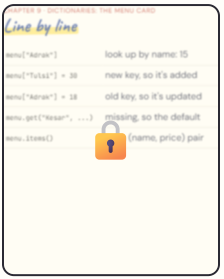

CHAPTER 9

Sneak peek: the rest of this topic

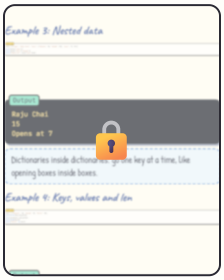

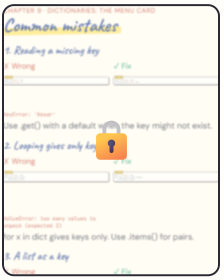

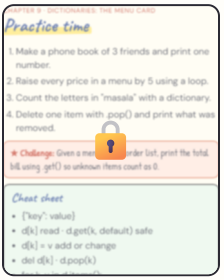

Inside the full book:

- The idea, explained simply
- Syntax up close
