Python with Chai

Write Python on your own

30 hands-on chapters, from your first line of code to your own Chai Shop app.

Raj

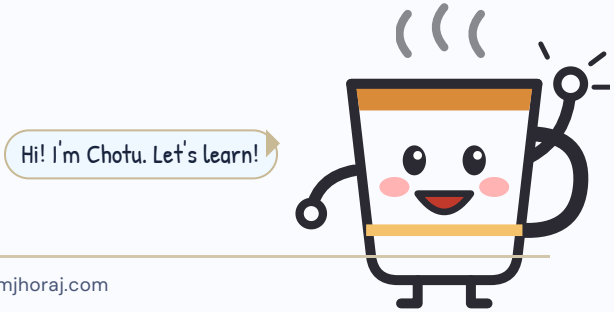

Basic

Chapter 1
Hello, Python!

> Your first program is one line long. Let's write it!

In these notes

- ✓ What Python is, and why everyone loves it
- ✓ How to install Python and run code
- ✓ print(): make the computer talk
- ✓ Comments and Python as a calculator

The chai shop story

Imagine Raju's chai stall has a new helper robot. The robot is super fast but knows nothing. It only follows written instructions, one by one, exactly as written. Python is the language we use to write those instructions. Say print("Chai ready!") and the robot shouts "Chai ready!". That's it: you just programmed a computer.

> **Remember:** Your first program is one line long. Let's write it!

Inside Chapter 1 in the full book

1. Hello, Python!

- The idea, explained simply
- Syntax up close
- Two worked examples with real output
- Line-by-line walkthrough
- Two more examples
- Common mistakes, with the real errors
- Practice, a challenge and a cheat sheet
- Answers at the back of the book

The full book: 30 chapters · 336 pages · Basic to Expert · PDF + EPUB
