Function naam wala recipe card hai.

Is notes mein

- ✓ def, parameters aur return
- ✓ Default aur keyword arguments
- ✓ *args: kitni bhi values
- ✓ Scope: variable kahan rehta hai

Is chapter ke video lessons dekho
Run a function
Default values: less sugar

Chai dukaan ki kahani

Raju masala chai har baar ek jaise banata hai, bas cheeni aur cups alag. Toh usne ek recipe card likha: "make_chai(cups, sugar)". Helper card padhta hai, numbers bharta hai aur chai wapas deta hai. Woh dobara use hone wala card hi function hai.

> **Yaad rakho:** Function naam wala recipe card hai.

Har program ek chhoti kahani hai.

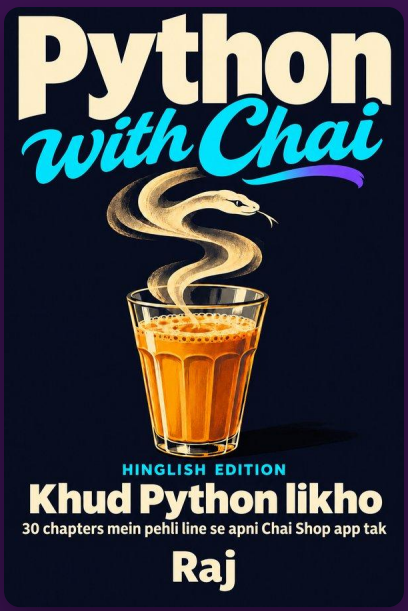

Poori book mein Chapter 10 ke andar

10. Functions: ek baar likho, hamesha use karo

- Idea, aasaan bhasha mein
