Python with Chai

Write Python on your own

30 hands-on chapters, from your first line of code to your own Chai Shop app.

Raj

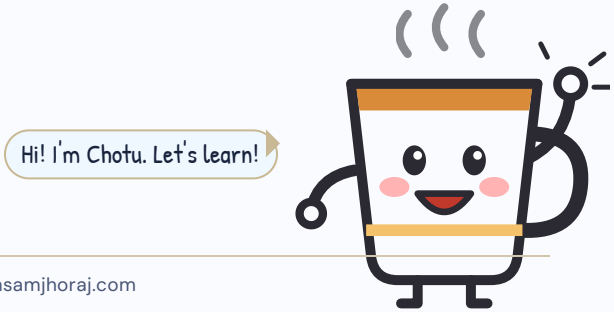

Intermediate

Chapter 12
Files, CSV and JSON

> Variables forget when the program ends. Files remember.

In these notes

- ✓ Writing and reading text files
- ✓ Modes: w, a, r and with
- ✓ CSV: spreadsheets as text
- ✓ JSON: saving dictionaries

The chai shop story

At night Raju closes the shop and his laptop. Next morning, yesterday's sales are gone, because they were only in variables. So he starts writing the sales into a notebook: a file. Python can write files, read them back, and even save whole menus as JSON.

> **Remember:** Variables forget when the program ends. Files remember.

Inside Chapter 12 in the full book

12. Files, CSV and JSON

- The idea, explained simply
- Syntax up close
