Python with Chai

Write Python on your own

30 hands-on chapters, from your first line of code to your own Chai Shop app.

Raj

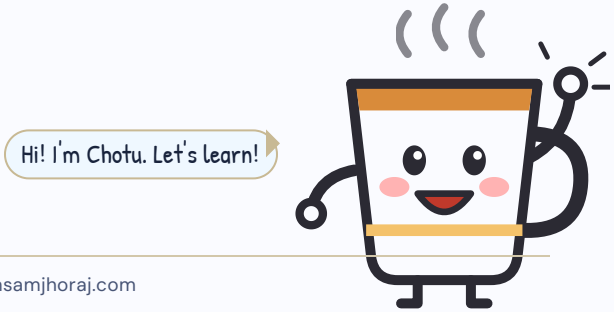

Intermediate

Chapter 13
Modules and the standard library

> Python comes with a toolbox. Don't build every tool yourself.

In these notes

- ✓ import, from ... import, as
- ✓ math, random and datetime
- ✓ Making your own module
- ✓ pip: installing more tools

The chai shop story

Raju doesn't build his own gas stove or grind his own steel spoons. He buys good tools and uses them. Python is the same: it ships with hundreds of ready modules (the standard library), and pip downloads thousands more. A coder's skill is knowing which tool to pick.

> **Remember:** Python comes with a toolbox. Don't build every tool yourself.

Inside Chapter 13 in the full book

13. Modules and the standard library

- The idea, explained simply
- Syntax up close
- Two worked examples with real output
- Line-by-line walkthrough
- Two more examples
