Python with Chai

Write Python on your own

30 hands-on chapters, from your first line of code to your own Chai Shop app.

Raj

Intermediate

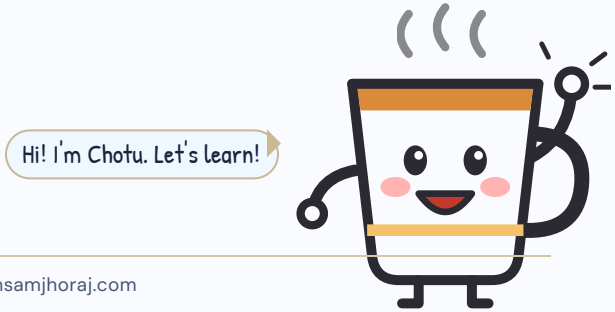

Chapter 20

Project: the Chai Shop app

> Twenty chapters of tools. Now build something real.

In these notes

- ✓ Planning a small app
- ✓ Classes for Menu and Order
- ✓ Saving orders to JSON
- ✓ A command loop with input()

The chai shop story

Raju wants one program for the whole shop: show the menu, take orders, add a discount for big bills, and save every order so nothing is lost overnight. It sounds big, but it's just the pieces you already know, snapped together like a toy kit.

> **Remember:** Twenty chapters of tools. Now build something real.

Inside Chapter 20 in the full book

20. Project: the Chai Shop app

- The idea, explained simply
- Syntax up close
- Two worked examples with real output
- Line-by-line walkthrough
- Two more examples
- Common mistakes, with the real errors
