Chai dukaan ki kahani

Raju din ke orders ek lambi parchi par likhta hai: Masala, Adrak, Masala, Tulsi… Naye neeche jodta hai, cancel wale kaat-ta hai, aur raat ko sort karke dekhta hai kya zyada bika. Python list bilkul wahi parchi hai: items ki ek line jo badal sakti hai.

> **Yaad rakho:** Ek list mein poora menu aa jaata hai.

Har program ek chhoti kahani hai.
