Python with Chai

Write Python on your own

30 hands-on chapters, from your first line of code to your own Chai Shop app.

Raj

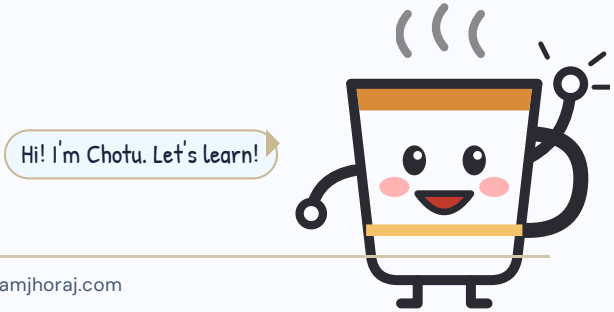

Basic

Chapter 8
Tuples and sets

> Some things never change, some never repeat.

In these notes

- ✓ Tuples: fixed, unchangeable groups
- ✓ Unpacking a tuple into names
- ✓ Sets: unique items only
- ✓ Set maths: union and intersection

The chai shop story

Raju's shop address never changes: lane, city, pin code. He writes it once and never edits it, like a tuple. At the end of the day he wants to know how many DIFFERENT customers came, not how many visits. Ravi came three times but is one person. That's a set.

> **Remember:** Some things never change, some never repeat.

Inside Chapter 8 in the full book

8. Tuples and sets

- The idea, explained simply
- Syntax up close
- Two worked examples with real output
- Line-by-line walkthrough
- Two more examples
- Common mistakes, with the real errors
